

A new standard governing the colour coding of transportable gas cylinders is coming into force across Europe. As a result, the cylinders you receive from BOC Special Products will in some cases have a new colour scheme

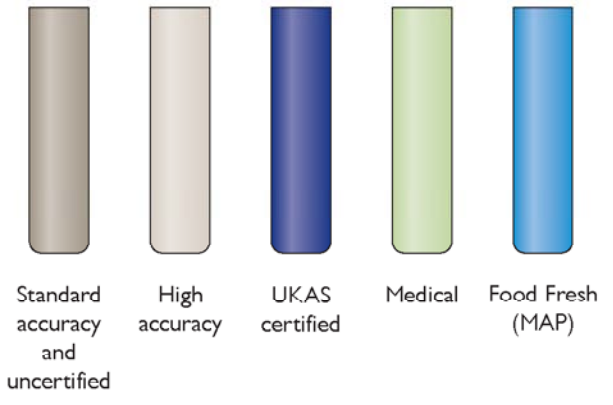

BOC Scientific - Gas mixtures

Legislation aimed at standardising gas cylinder colours across Europe is being introduced. As a result, the following top colours will apply to cylinders containing Special Products mixtures.

- Red = Flammable
- Yellow = Toxic or corrosive
- Light blue = Oxidising
- Bright green = Inert
- Red and yellow = Flammable and toxic
- Yellow and light blue = Toxic and oxidising

The body colours of BOC Scientific cylinders are split into five categories as indicated below:

BOC Refrigerants
