- Robust all welded steel construction.
- Suitable for size D & E.
- 2 swivel & 2 swivel & brake castors fitted.
- Polyurethane paint finish. Standard colour: BOC Red.
- Storage Capacity: 12 cylinder capacity.
- Dimensions: 500L x 650W x 1100H – mm.

GOLIATH Structural Guarantee

All products are supplied with both a 10 Year Structural Guarantee and a 20 Year Guarantee on all Plastisol coated weather-proof cladding. Fully welded, heavy-duty mild steel construction combined with a multiple layer surface protection system ensures that all products deliver a high quality long term solution.

As with all mild-steel structures standard maintenance protocols must be followed in order to maintain a long term finish and appearance. All of our GOLIATH products are fully compliant with all relevant regulations, standards and best storage practice. This guarantee is subject to standard weather and environment conditions and it should be noted that exposed coastal areas or highly corrosive chemical atmospheres require higher specifications such as galvanising or stainless steel.
